

THE ARTISTS

AN INDEX TO THE ANNALS AND DISCOGRAPHY

COMPILED BY Frank Hamilton © 2010

<http://FrankHamilton.org>

fh@FrankHamilton.org

This is an alphabetic index of production and performing artists, engineers, designers, and others who worked with Maria Callas and appeared on stage with her. The index is by date instead of page number allowing it to be used with both the performance annals and discographies. Dates of recording sessions have been simplified to avoid confusion, and dates of recorded performances have been printed in bold.

This work began as a sort of spelling check program for the performance annals. With great effort and much programming, it has been adapted here as an index that can be used with a printed version of the documents.

The bookmarks provided with the PDF version of this document denote the person's name that begins each page, or each new letter of the alphabet.
